SHARE OWNERSHIP INCENTIVE PLAN

Employee Share Plan

Every new full-time and part-time employee is given 100 shares at the end of their probation period, with AMC absorbing the purchase and tax costs.

Bonus Plan

Generous bonuses are paid in cash and as shares, less applicable tax.

Share Purchase Plan

Shareholders are paid an incentive to purchase more shares. We also offer a savings plan in the form of a post-tax salary deduction if employees wish to purchase shares that way.

Dividends

One of the company's financial objectives is to sustainably deliver a 10% to 15% per annum return on investment over a rolling-five year period.

Capital growth

Sustainable capital growth is a key pillar of the company's vision to maximize shareholder value to complement remuneration and culture.

Since 1983, AMC has a proud history as an employee-owned premium-brand mining-services consultancy firm. Employee ownership in the AMC Group's holding company has delivered benefits for employees as a means of building personal wealth, and, for clients, by supporting independence of trusted advice.

AMC is loudly and proudly independent, and the aim of the Share Ownership Incentive Plan (SOI Plan) is that all employees are shareholders and all shareholders are employees.
